## COMMONLY USED DIAGNOSIS CODES

This is not a complete list but depending on the nature of your practice this may be a useful tool. Please refer to an official ICD-10 CM manual for a complete listing. It is the responsibility of the ordering physician to determine, for the specific date of service, the appropriate diagnosis code(s) based on the patients signs and symptoms. ICD-10 codes are required by third party payors to confirm the medical necessity of the tests and/or profiles ordered.
