Commonly Used Diagnosis Codes

Listed below are ICD-10 diagnosis codes commonly received by Dominion Diagnostics. Code descriptions were taken from the official code set, issued by the US department of Health and Human Services. This is not a complete list but depending on the nature of your practice this may be a useful tool. Please refer to an official ICD-10 CM manual for a complete listing. It is the responsibility of the ordering physician to determine, for the specific date of service, the appropriate diagnosis code(s) based on the patients signs and symptoms. ICD-10 codes are required by third party payors to confirm the medical necessity of the tests and/or profiles ordered.

Dominion Diagnostics supplying of this information is a customer service tool only and does not suggest and is not meant to suggest that any of these codes should or should not be used. Dominion Diagnostis makes no recommendation regarding the use of any particular diagnosis codes. All Diagnosis information should be reflected in the patient's medical record.
